It has been brought to my attention that Glen Campbell of Action Appliance has been nominated for the Better Businesses Business Integrity award.

I would like to take this time to acknowledge Glen's integrity as a businessman and a friend. Being a small business operator/owner as well, I occasionally require someone to take care of business in order to take holidays or even when a family emergency may arise. What I need in times like this is someone that I can trust to give my customers the fast, efficient service that they deserve. I trust Glen to represent my company in times like this. I do not have to worry about loosing key accounts or customers while I am away and because of this I endorse the nomination given to Glen for your award.

Respectfully yours,
Dan Anderson

(Proprietor)
